

GREENBACK TAX WILL GO THROUGH.

THE DECLARATION MADE BY REPRESENTATIVE HALL.

He Says That There Is No Doubt of It Becoming a Law—Silver Men Very Nearly Win a Victory—Senator Allison Concludes His Wilson Bill Speech.

WASHINGTON, April 5. [Special]—Representative Hall of Missouri, says that there is no doubt but that the bill to tax greenbacks will pass congress. At one time yesterday four votes to make a quorum would have passed Bland's seigniorage bill over the President's veto. The republicans would not vote at first owing to a disagreement with Speaker Crisp, but on the second roll-call they recorded themselves against passing the bill, so the attempt to override the veto failed, the yeas being 144 and the nays 114, considerably less than the necessary two-thirds in the affirmative.

The vote itself was lighter than on the passage of the Bland bill. The bill passed by 168 to 129—a majority of 39. On overriding the veto the majority was only 30, but this was only the natural drop due to the smaller vote. Ten populists voted for the Bland bill, while only five were recorded in favor of overriding the veto. Fifty-four democrats voted to sustain the veto, as against forty-nine who opposed the passage of the bill originally. There were sixty republicans against the passage of the bill, and there were sixty who voted to sustain the veto. Twenty republicans voted to pass the bill and sixteen were recorded in favor of overriding the veto.

SENATOR ALLISON RESUMES.

His Criticisms of the Wilson Bill Continued in the House

WASHINGTON, April 5.—Senator Allison concluded his attack on the amended Wilson bill yesterday. Following up his analysis of the ad valorem system he claimed the committee had yielded to certain favored interests, giving specific instead of ad valorem duties. Senator Allison said the majority on the committee had played into the hands of speculators in whisky and sugar, and furthermore proposed to give advantages to these trusts. He declared his own position as in favor of free sugar, both raw and refined. Senator Allison discussed the proposed extension of the bonded period for whisky, showing wherein that extension gave the Kentucky distillers an immense advantage over the manufacturers of alcohol.

The republican position having been foreshadowed in Senator Allison's speech the interest now attaches to the democratic opposition. The full extent of this will not be known until Senators Hill and McPherson have made their speeches. Hill talks as though he intends to make a speech which will place him definitely in the ranks of those who will vote against the bill unless it is changed so as to be simply a modification of the McKinley law. He will reiterate his well-known opposition to the income tax.

Proceedings in the House.

WASHINGTON, April 5.—The house by a vote of 170 to 13, unseated Mr. Hilborn (rep.) of California, and gave his seat to English, the democratic contestant, yesterday.

Mr. Bland then called up the seigniorage and moved that it pass, the objections of the executive to the contrary notwithstanding. Mr. Bland stated that Saturday at 3 o'clock he would demand the previous question.

The republicans were in favor of a debate on the bill and were in consultation on the subject when the speaker ordered the roll call. Mr. Reed of Maine and other republican members protested, but the regular order was insisted on by the democrats and carried out.

The republicans refused to vote on the first roll call. The anti-silver men were in despair, as the first roll call gave the silver men the necessary two-thirds. Finally, after consultation, they agreed to vote and did vote on the second roll call. This turned the tide, and upon the announcement of the vote it was found that the motion to pass the bill over the veto had been defeated, the silver men lacking the necessary two-thirds. The house then adjourned.

In the Senate.

WASHINGTON, April 5.—In the senate yesterday the report of the secretary of agriculture relative to the visible supply of wheat was read and referred to the committee on agriculture.

Mr. Peffer had begun a speech on the proposition to repeal all laws authorizing the secretary of the treasury to issue bonds without specific authority from congress, when the matter was put over until to-day and debate on the tariff bill resumed by Mr. Allison.

Mr. Mills followed, confining himself chiefly to a defense of the ad valorem system. After an executive session the senate adjourned.

State Tax on Greenbacks.

WASHINGTON, April 5.—By a vote of 8 to 5 the house committee on banking and currency decided to report in favor of subjecting greenbacks to state and municipal taxation. The bill was introduced by Representative Cooper of Indiana, and is regarded as an important one bearing on the general currency question. Representa-

tive Springer of Illinois was the only democrat to vote against reporting the bill, and Representative Walker of Massachusetts the only republican to vote in favor of it.

Relics of the Kearsarge.

WASHINGTON, April 5.—The navy department is making an effort to recover the plate of the wrecked Kearsarge, which is supposed to have been carried to New Providence or Kingston, Jamaica, by the native wreckers. At the instance of Acting-Secretary McAdoo the state department has cabled the United States consul at Kingston to endeavor to recover these things as historical relics of the famous old ship.

The New China Treaty.

WASHINGTON, April 5.—The Chinese treaty probably will be taken up at the next executive session of the senate, as it has the right of way on the executive calendar. There is little doubt that the treaty will be ratified, but there will be some objection and an explanation of some of its terms will be called for from the members of the committee on foreign relations, who are its sponsors.

Anti-Thistle Bills Not Favored.

WASHINGTON, April 5.—Adverse action was taken by the house committee on agriculture on all pending bills appropriating money to exterminate the Russian thistle and Representative Baker was authorized to report them to the house. Adverse action was also taken by the committee on Representative Cogswell's bill appropriating \$100,000 to exterminate the gypsy moth.

RESULT OF KANSAS CITY RIOT.

Three Injured Will Probably Die—Men Arrested Charged with Murder.

KANSAS CITY, Mo., April 5.—The three men reported as fatally wounded in Tuesday's election riot between A. P. A. and Catholics are still alive, but it is not believed they can recover. Pate, the deputy constable who precipitated the riot while trying to arrest one of the Pryor family, told his story of the affair. He said he believed Mike Callahan, the only one who was killed outright, is the man who shot him. He says while he was attempting to take Pryor some one threw his arms around him and Callahan fired. Pate is one of those mortally wounded. Charges of murder in the first degree were filed against Jerry M. Pate, E. L. Coleman, E. C. Ott, W. G. McCowen, and O. M. Bigham, who were commissioned as special deputies under Constable Browning of West Port, and against S. A. Pike, John Gove, Andrew Gove, and W. H. Gunn, who were sympathizers of theirs. Bail was refused, all except Pate being committed to jail.

Carolina War Cloud Rolls Away.

COLUMBIA, S. C., April 5.—The warlike cloud which has been hanging over South Carolina for the last five days seems now about to roll away. A committee of the citizens of Darlington came here yesterday and held a long consultation with the governor. As a result the governor will withdraw the troops and let the civil authorities take control. Gov. Tillman stated that the inquest in Darlington had been begun at 8 o'clock in the morning, but that the hearing was progressing slowly. The spies will be taken there to testify.

The Guest of Iowa.

DES MOINES, Iowa, April 5.—George W. Jones of Dubuque, first United States senator from Iowa, arrived here yesterday and was given a reception by the legislature in the afternoon. Speeches were made by Lieutenant-Governor Dungan, Speaker Stone, George C. Wright and others and the whole afternoon given up to the occasion. Gov. Jackson participated in the ceremonies. Mr. Jones will be ninety years old on April 12 and this reception was given in recognition of the event, as the legislature will not be in session on the 12th.

Republicans Win in Rhode Island.

PROVIDENCE, R. I., April 5.—Democratic papers concede Brown's election for governor by a plurality of 4,914, and say the general assembly is also republican. Returns from all but five towns give Brown 23,691; Baker, 18,380. The republicans are celebrating the victory all over the state. Brown may have 7,000 plurality when the complete corrected returns are received.

Fail to Seat Women.

NEW YORK, April 5.—The New York conference of the Methodist Episcopal church met in ninety-fifth annual session here. A resolution was adopted which postpones until after the next general conference action upon the proposition to qualify women to sit as delegates in the general conference. There was not a dissenting voice upon the motion to postpone action.

Alleged Confession of Bribery.

NEW YORK, April 5.—A confession is said to have been made by one of the jurors, whose name is not given, in McKane's trial that he was bribed to vote to acquit McKane. His purpose was discovered by his associates, and he finally weakened when threatened with exposure and prosecution.

Eastern Illinois Strike Deferred.

CHICAGO, April 5.—The threatened strike of train employees of the Chicago & Eastern Illinois railroad will not take place before the end of the month. A leading official of the engineers is responsible for this statement and it may be accepted as correct.

COXEY'S BUM ARMY WERE LOCKED UP.

COMMONWEALERS PUT IN JAIL AT ALLEGHENY.

Vagrancy is the Charge Made and No Excuses Were Accepted—Citizens Show Much Indignation—Contributions of Supplies Liberal—General Frye's Army.

ALLEGHENY CITY, Pa., April 5.—Coxey's army is imprisoned in Allegheny. Some of its troopers lie behind the bars of the Central station; the others are behind a twenty five foot fence in the baseball club grounds. Any excuse was sufficient for the arrest of a man wearing the Coxey badge. Every contumely and insult that the Allegheny police could devise has been heaped upon the army. At night the cells of the Central station were crowded to suffocation with Coxey men, the charge in nearly every instance being vagrancy. The men arrested are almost invariably the pick of Coxey's army—clean, bright-eyed men whose only offense consists in being out of work and wearing a common-weal badge. Out of fifty-eight men arrested there was only one case of disorderly conduct. A visit to the cells failed to locate a drunken man.

The two public meetings held by Coxey were packed to the doors. There are both excitement and indignation in Pittsburgh. The general sentiment seems to be one of sympathy with the army. Contributions and supplies have poured in upon it. One of the principal firms in the city sent 300 pairs of shoes and 100 vests to the camp. Another firm sent 350 pounds of meat, 248 fish and 1,000 loaves of bread. Still another sent two cases of soap, three baskets of clothing and a large quantity of tobacco. Minor contributions aggregating many wagon loads were contributed during the day.

All the men arrested were taken into court and railroaded into the workhouse for thirty days each. Most of the men had union cards and showed them to the justice, but it did them no good. Chief of Police Muth gives no reason for his procedure; he simply says that he is running the police force.

According to the program the army will march through Pittsburgh to-day on its way east. It is doubtful if Chief of Police Muth allows it outside the fence. Both Coxey and Browne have a good deal to say on the subject, but it has no effect.

INDUSTRIAL ARMY'S PROGRESS.

Crosses to East St. Louis and Will Go to Cincinnati to-day.

ST. LOUIS, Mo., April 5.—The industrial army was astir bright and early yesterday morning. Arrangements have been made for the army to leave for Cincinnati this morning over the Baltimore & Ohio in twelve box cars.

CINCINNATI, Ohio, April 5.—Forty men arrived in a box car on the Big Four road yesterday and went into camp in the western part of the city. They are what remains of a company formed at San Antonio, Texas, for the avowed purpose of hunting work. As fast as employment is found the men drop out. Chief of Police Deitsch placed the men under police surveillance. The men left to join Coxey's army.

LIVELY RISE IN WHEAT.

The Price Goes Up Three Cents on the Chicago Board of Trade.

CHICAGO, April 5.—Wheat took a 3-cent jump yesterday. For two years and a half the bears had things all their own way in selling wheat. The bulls are now saying that the day of retribution has arrived and there seemed to be some warrant for the assertion. May wheat was worth only 60¢ on Monday afternoon. Tuesday there was no session of the board, and yesterday no wheat could be bought below 61¢ and very little at that. In the course of another hour and a half there was an excited struggle to get possession of wheat at 63¢, and it sold as high as 63½¢ before enough could be obtained to satisfy the demand. That made the gain for the day within one-eighth of 3 cents per bushel. The cause of all the excitement was that in addition to the frost having cut off half of the crop on this side of the Rockies, a two months' drought is now threatening as serious a disaster to the California crop.

To Save Brazilian Refugees.

LISBON, April 5.—The steamship Angola has left this port for Buenos Ayres, where the vessel will embark the Brazilian refugees who are now on board the Portuguese warships at that port. The Angola will come straight back to Portugal and will not touch at any Brazilian port.

Hotel at Montrose, Colo., Burns.

MONTROSE, Colo., April 5.—The Hotel Belvidere was burned to the ground last night, building and contents being a total loss. The loss is fully \$60,000; insurance, \$22,000. Adjoining buildings were saved with difficulty. All the inmates escaped in safety.

Fauncefote to Be Transferred.

LONDON, April 5.—Truth says that Sir Julian Fauncefote, British ambassador to the United States, will probably succeed Sir Edward Malet as ambassador to Germany at the end of this year.

RIVULETS OF BLOOD IN THE COKE FIELDS.

FIERCE BATTLE OCCURRED THIS MORNING.

Twelve Hungarians Were Killed and Many Injured—Thousands of Armed Men are Moving on the Mines and the Excitement is At a Fever Heat.

CONNELLSVILLE, Pa., April 5.—[Special]—Reports from the valley say that a fierce fight occurred there this morning in which twelve Hungarians were killed and several injured. The entire coke region is in a high state of excitement and there are great fears of more bloodshed and destruction of property. Armed mobs are marching toward the different mines, some of them with as many as a thousand men in line. Riot rules and in the northern and central portions of the region were the scene of continuous battle from early morning. Ten thousand infuriated strikers marched from point to point in the region spreading death and destruction. Bloodier deeds were only prevented by the active use of 500 rifles in the hands of determined deputies and special officers. At least nine lives have been lost already, and fully a half dozen other victims of these infuriated mobs are lying at the point of death as a result of the conflicts of the day. The civic authorities are powerless to control in any way the mobs of ignorant foreigners who now stand guard throughout the region and declare that any attempt to move a wheel means a battle.

The fatalities of the day have been: PADDOCK, J. H., chief engineer of the Frick company, murdered by the strikers. DEPUTY SHERIFF (unknown) of Greensburg, murdered by strikers.

FOUR STRIKERS, two fatally shot near Davidson and two fatally shot at Mayfield; have died since.

HUNGARIAN STRIKER at Mayfield, shot through the head by a deputy sheriff.

HUNGARIAN STRIKER, shot by a deputy at Bradford.

SLAV STRIKER, shot by guards, found dead in field.

The climax of all the troubles of the day was reached when 1,000 armed strikers came down upon the Davidson works of the H. C. Frick Coke company, near Connellsville. The workmen were not in sympathy with the strike. The horde of ignorant foreigners pounced down upon them like wild beasts. They first went to the homes of the workmen, and there burned and destroyed property of the company, and drove women and children into the fields. Not satisfied with this they subjected the workmen and their wives to the most barbarous indignities.

Hugh Call, a Frick engineer, who was on duty at the works asked them to peacefully leave the grounds of the company. His request was received with jeers, and the rioters rushed down the hill shooting and hurling stones and clubs in every direction. Chief Engineer J. H. Paddock attempted to escape but failed and came within range of the mob. He was shot in the back of the head and instantly killed. The rioters made a rush on him and after life was extinct beat the body beyond recognition.

The report of Engineer Paddock's murder spread rapidly over the region and within a half hour afterward 100 armed citizens from Connellsville and vicinity, under the leadership of County Detective Frank Campbell, started in pursuit. About two miles down the Baltimore & Ohio tracks from Connellsville the citizens overtook fifty of the strikers, and after a desperate struggle the rioters were overpowered and ten of the leaders were placed under arrest. In the conflict one Hungarian was shot through the head and instantly killed and two others were mortally wounded. A desperate attempt was made to lynch the prisoners. They were brought here on a special train over the Baltimore & Ohio road closely guarded and lodged in jail.

The special train was stopped at Dawson on the way up and fifty more rioters were taken aboard. In all there were sixty-four rioters arrested and locked up.

The larger portion of the mob which visited the Davidson works escaped and went to the Broad Ford plants of the Frick company. Here they attempted to renew hostilities, but ran up against forty guards. A skirmish followed during which fifty shots were exchanged, but at such long distance that there was but one man killed. A deputy shot a Hungarian through the neck, causing instant death. As soon as one of their number fell the rioters fled in every direction, leaving their comrade to be picked up by the company men. The force of deputies about the works has been increased to 100. The Frick company has established guards about all the works, and the most disastrous results are expected within the next few hours.

MAY RESULT IN A GREAT STRIKE.

Ohio Workmen Said to Be Preparing to Go Out—Petition for Railroaders.

COLUMBUS, Ohio, April 5.—The change of officers of the Ohio United Mine Workers means to be that there is to be a war on the wage scale question and that the 70-cent rate will be restored on the 1st of May or there will be a general strike throughout the state, affecting 25,000 men.

OMAHA, Neb., April 5.—Judge Duffie and John D. Howe, the attorneys representing those Union Pacific employees

whose wages were reduced last September, will present a petition to Judge Caldwell in the Circuit court to-day asking that the wages be returned. The petition will include all classes of employees except telegraphers, engineers and trainmen. The former's case has been settled out of court and the latter's Judge Caldwell will pass upon to-day. The switchmen, who have met with no cut, will not be represented. The American Railway union is the direct representative of the monthly paid employees and will be the backer of the petition.

INDIANAPOLIS, Ind., April 5.—The carpenters' council at a meeting last night voted unanimously to go on a strike to-day. Twelve hundred union carpenters will lay down their tools. If the fight is prolonged it will affect all other building trades in the city. The carpenters want 30 cents an hour. The contractors refuse to pay more than 27½ cents.

Lockout in Chicago.

CHICAGO, April 5.—Nearly all the working painters in Chicago are idle. The association of employers yesterday decided to take aggressive measures against the pending strike, and agreed to a general lockout by which 3,000 men are thrown out of employment. Seventy-seven firms signed an agreement to suspend operations for the present. There is to be a meeting of the Central Building league, composed of delegates from all the employers' associations and from the manufacturers of and dealers in building material. At this meeting the policy of a general lockout will be discussed, and possibly that extreme measure may be adopted.

INDIANS WILL FIGHT.

Many Bucks Join Red Moon's Band Armed and Ready for War.

EL RENO, Ok., April 5.—Troop B has followed troop K to the scene of the trouble between cattlemen and Indians in the Cheyenne and Arapahoe country. The battle, say couriers, still continues. When troop B reached the scene a hot skirmish was in progress. The soldiers took a hand and one white man and four braves were added to the list of seven dead. The latest rumor is that the Indians are gathering in large numbers. There is a possibility of a brief but bloody war. It is claimed that if the Cheyennes and Arapahoes, who number 300 at this agency were to go on the warpath they would be joined by the Apaches, Comanches and Kiowas, who number several thousand.

The Indians engaged are followers of Red Moon. They are all armed with rifles and have plenty of ammunition. The Indians from other parts of the reservation have hastened to join Red Moon, and he now has a band of about 150 bucks in the fighting crowd that is moving up the Washita river.

ANOTHER BOMB IN PARIS.

Explosion Near the Senate Chamber Causes Excitement.

PARIS, April 5.—A bomb explosion occurred here, near the senate chamber, at 9:20 o'clock p. m. The bomb was placed in a flower box on a window sill. It exploded with a tremendous report and shattered all the windows of the restaurant, besides breaking the windows in a number of other buildings. M. Taillate, an artist, and his wife were injured. A strong force of military and police soon had possession of the restaurant, and the official investigation was commenced. The entire police force of the district was promptly mobilized and sent to the scene, but the military guards on duty at the senate had been called to arms immediately, and the soldiers soon had the restaurant in their possession. So promptly did the police work that but a comparative short time elapsed before the alleged anarchist was in custody.

SUSPENSION FOR TWO YEARS.

Verdict of the Kearsarge Court-Martial in the case of Commander Heyerman.

WASHINGTON, April 5.—The result of the court-martial in the case of Commander O. F. Heyerman, commanding the Kearsarge when she was wrecked, is that he is sentenced to be suspended from duty for a period of two years on waiting orders, during which time he shall retain his present number on the list of commanders.

Canadian Steel Market Invaded.

NEW CASTLE, Pa., April 4.—It has just been learned that the New Castle Steel company has been invading Canada and has found a good market for steel billets. It seems that the company has not only been able to undersell the English companies but makes a superior quality of steel.

THE SEMBLANCE OF LOVE.

Col. Breckinridge Draws Some Very Fine Distinctions.

WASHINGTON, April 5.—Judge Wilson opened yesterday's proceedings in the Pollard-Breckinridge suit by asking Col. Breckinridge whether he had ever been in Goldsborough, to which he replied that he had been in the little hamlet once to make a speech at a barbecue, which he thought was in 1886 or 1888. He did not remember the colored woman who opened the door at 1519 H street the day after he took luncheon there in April (as heretofore testified to), nor of having complimented her on the luncheon.

"Did you not say to her that when you and Madeline went to housekeeping you wanted her to come and cook for you?"

"That is entirely fanciful. I never said anything of the sort to any colored woman."

Referring to the colonel's statement that he had made no protestations of love to Miss Pollard on the occasion of that momentous carriage ride, Mr. Wilson asked him when he began to talk to her affectionately.

"I never did make protestations of love. I talked to her kindly, encouragingly, when she was depressed; endeavored to get her to do something to make a place in the world for herself."

Col. Breckinridge wished to draw the distinction carefully between expressions and demonstrations. He said there was nothing but perfect understanding on their part of their relations.

"There were no expressions of love on her part?"

"I would not say that. She was at times very demonstrative; at times otherwise."

Judge Wilson asked: "Do you think that a man is under obligations to prevent the destruction of a young woman?"

"Most assuredly I do, and if he does not he should be punished. I have had my punishment and am trying to take it without complaint."

Mr. Wilson asked when the subject of marriage had been first mentioned between them, to which the colonel replied that it was in September, 1892, when she first spoke of going to Berlin. He had told her that for many reasons, among them the disparity in their ages, that since he knew what he did of her relations to Rhodes, and that as she had bled him three years and thrown him away like a sucked orange, marriage between them was impossible.

"Then it was understood that you were to carry out the semblance of a marriage contract which you both understood was never to be fulfilled?"

"There was the semblance of a contract to be carried out before only one living person, and that person Mrs. Gov. Blackburn."

In further cross-examination Mr. Wilson brought out the fact that in filling out the certificate of marriage of Mrs. Wing to Col. Breckinridge it was made to appear that that marriage was the colonel's second, whereas it was really his third; that he had asked Dr. Paxton not to make that marriage public, and that after his marriage with Mrs. Wing he stopped with her at the Hotel Logerian in New York, registering as William J. Campbell and wife. Col. Breckinridge could not recall that at that time he had sent certain telegrams to Mrs. Blackburn.

On many points where his testimony differed from that given by Mrs. Blackburn, the defendant always answered that his recollection was different from that of the lady.

After some questioning regarding the visits of the plaintiff and defendant to a certain house on Second street and the testimony expected to be given by a woman from the place Judge Wilson ended his cross-examination and Mr. Butterworth took the witness in hand. After repeating some of his former testimony till the judge bade him stop, the defendant was excused by his counsel. His tale was told and it him four days to tell it. His counsel had not expected so early a termination and were not prepared with any other witness. Possibly they may decide to put no one else on the stand.

Judge Bradley in adjourning court administered a stinging rebuke to the spectators. "You make me think," he said, "of a lot of buzzards in a tree awaiting for a sick horse to die."

Y.M.C.A. WITHDRAWS FROM THE CONTEST.

PIANO VOTES CONFINED TO INDIVIDUAL CONTESTANTS.

Original Idea Was to Provide an Instrument for Some Girl Dependent Upon Her Own Resources and This Plan is To Be Strictly Followed.

After consultation with the parties interested, a special ruling has been made in the Gazette piano contest with regard to candidates who represent organizations.

The piano offer was made with a view of providing a way for some young lady depending upon her own resources to secure a fine instrument. Girls who do not provide for their own support were barred for this special reason, it seeming unfair that the field should be open to those whose parents might give such aid as to make the efforts of other candidates hopeless. From first to last the intention was to make the result hinge upon the popularity and energy of individual contestants.

As will be seen at once the objections to candidates who are not self supporting apply with still greater force to those who are candidates only in name and stand for organized societies.

The question was first raised in the case of Miss Maria Gibbs who very generously offered her time and energy in behalf of the Y. M. C. A. The rule, however, applies to all similar instances. Miss Gibbs at once recognized the value of The Gazette's offer and suggested to friends that if she could secure the piano she would give it to the Y. M. C. A. Her proposition was a liberal one, and for it she is entitled to the thanks of the association. It occurred to Miss Gibbs, however, that the plan might not be within the scope of The Gazette's intentions and she submitted it for approval. At first the objections were not so plainly recognized, but it was afterwards seen that the effort could hardly be sanctioned, in fairness to other candidates. This announcement was made to Miss Gibbs last night and she very gracefully acquiesced. Acknowledgment should be made at this time of the energy Miss Gibbs displayed in the canvass and the deep interest in the Y. M. C. A.'s welfare which she has manifested from the first.

All who are interested in the canvass are urged to examine the Shaw pianos on exhibition at S. C. Burnham & Co's. The prize piano is expected in a few days.

"As fine an instrument as Janesville ever saw."

That's what Burnham & Co., say and they know Shaw pianos from pedal to music rack.

From now until the contest closes a coupon will be printed in each issue of The Gazette.

1. Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

2. Cut the ballot out (trimming on the dotted lines) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

3. Only one person can be voted for on one ballot.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give a \$500 Shaw Piano to the Young Lady who receives the largest number of these ballots.

WIS.

6. The lady who receives the largest number of votes will receive a good and beautiful piano as the Shaw Piano Company can make.

7. The contest will close June 30, 1894. Piano will be delivered as soon as the counting of votes is completed.

8. Any person who will bring The Gazette one new subscriber paid in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 1000 votes.

Each new subscriber who pays in cash the number of votes

specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

We will be square with you, you must be square with us. No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

The polls will close at 9:00 p. m., June 30, but votes handed in before this will be duly credited. The contest will be conducted strictly "on the square." No partiality or unfair advantage will be taken or allowed in any case.

HAD A COOKSVILLE CHURCH.

Latter Day Saints Well Received and Had Fair Audiences.

EDITOR GAZETTE: Under date of March 27th, your Cooksville correspondent has the following item:

"Cooksville people had little time for Rev. Pender, the Latter Day Saints lecturer. He did not succeed in getting the church and when he hired a hall he got no audience."

Now your correspondent from Cooksville is either ignorant of the facts or willfully misrepresents them. The facts are, that after Elder Pender had seen all of the trustees and secured the use of the church and advertised services (and many came some distance) the trustees refused to let them in the church, owing to a false rumor which he took pains to prove false beyond a doubt, but still two of the trustees refused to open the church as agreed, and the school board very kindly gave him the use of the school house, other kind citizens furnished lights and he preached to fair sized audiences, considering the size of the place and number of amusements that were going in at the same time.

In the meantime Elder Pender went to the other trustee who proved himself a gentleman and willing to do as he agreed as far as he could, so took him to the Congregational pastor, who received him very kindly and wrote the trustee who was objecting a letter advising him to open the church. He complied and the church doors were thrown open. Now Elder Pender did not at any time hire a hall in or near Cooksville and he did secure the use of the church consequently he was not "barred out." The readers of the Gazette can see it was a false statement from beginning to end.

I was a personal witness that the trustee told him he could have either the church or basement all the week. He then went in the church basement, but the weather and roads were very bad and the audience small so he closed there and went to the Wilder school house three miles distant where he preached to a good sized and attentive audience as long as he could remain. I was present much of the time and know these to be facts and can prove them. CHAS. C. HOAGUE.

Coup's Horses Act Well.

Lavish praise for W. C. Coup's trained horses is given by the St. Paul Globe. The horses will be seen at the Myers Grand tomorrow and Saturday nights and Saturday afternoon. The Globe says: "They do everything but talk," was the remark made by a lady spectator at the performance at the Newmarket, and a better or more favorable criticism could not be given. In his congress of educated horses Mr. Coup has secured a valuable and decided acquisition, for the high degree of intelligence attained by these animals is phenomenal. The idea of horses being at school is certainly unique, and they are most tractable, intelligent and delightful scholars. The perfect command and power possessed over his equine wonders by Professor Buckley is really wonderful. There are several other attractions besides the horses—a beautiful shadowgraph exhibition, pictures in mid-air; cornet solos by Miss Ida Clark, whose fame is equal to Levy."

NEW MONEY ORDERS READY ON JULY 1.

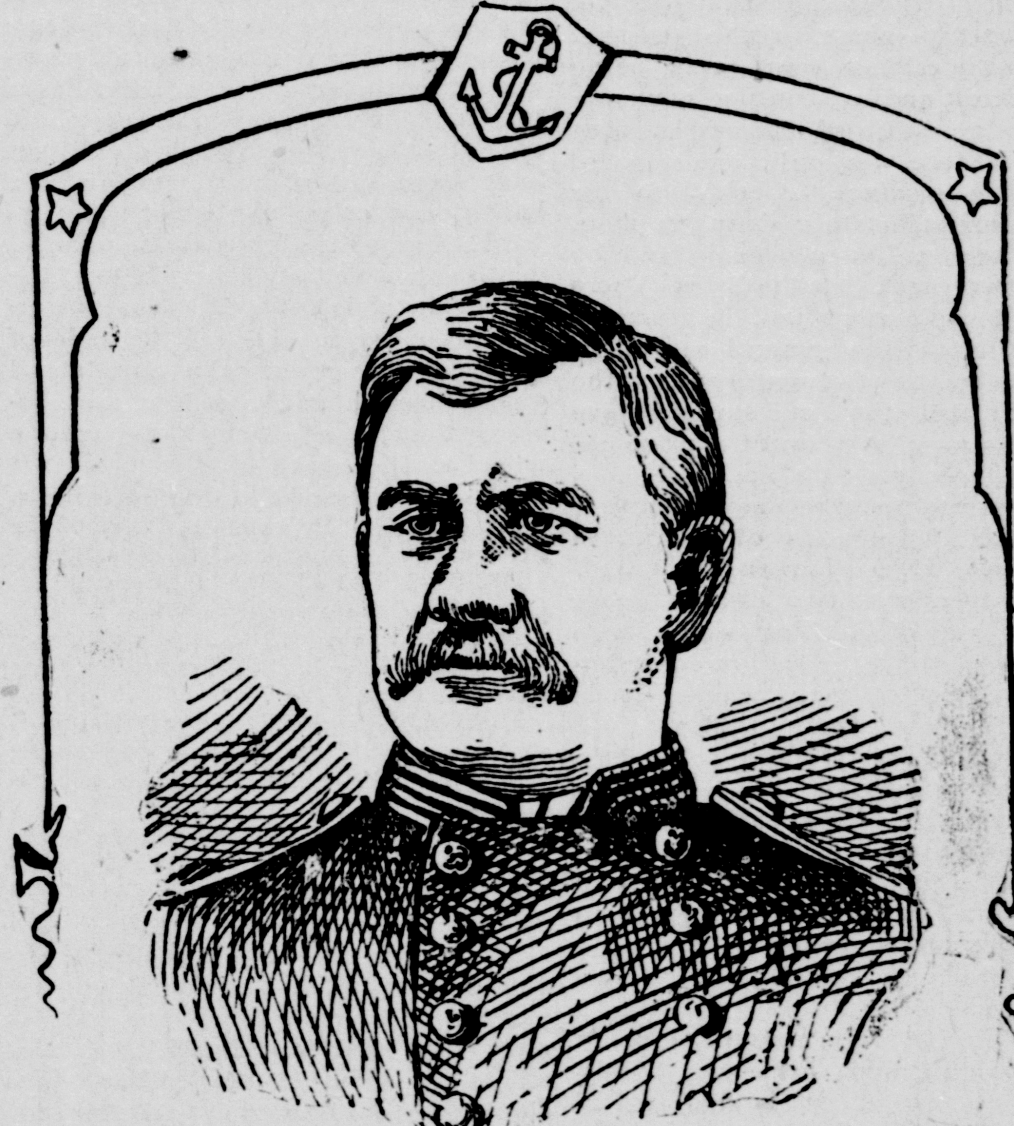

UNCLE SAM'S NEW SYSTEM A POPULAR ONE.

A Great Improvement on the Old Method—Absolute Safety Secured and a Considerable Reduction in Schedule of Fees—The Postal Note Will Be Entirely Done Away With.

Not until next July will those new money orders be issued. With the advent of the new money order the postal note will be abolished, since there will no longer be any need for it. The form of the new order is both artistic and beautiful, and withal of convenient size for handling. Its popularity throughout the country is likely to be great from the very start.

The schedule of fees to be charged for the new money orders has been reduced to the basis now charged by the various express companies for transmitting money, and will be as follows:

For \$2.50 or less, 3c.
\$2.50 to \$5, 5c.
\$5 to \$10, 8c.
\$10 to \$20, 10c.
\$20 to \$30, 12c.
\$30 to \$40, 15c.
\$40 to \$50, 18c.

A. E. K. BENHAM, Rear-Admiral U. S. Navy.
Appointed from New York in 1847. Promoted to Rear-Admiral in 1890. The hero who recently protected the American flag from the encroachment of the rebel insurgent Da Gama at Rio.

\$50 to \$60, 20c.
\$60 to \$75, 25c.
\$75 to \$100, 30c.

en Compared with the above the present rates for the issue of money orders are:

For \$5 or less, 5c.
\$5 to \$10, 8c.
\$10 to \$15, 10c.
\$15 to \$30, 15c.
\$30 to \$40, 20c.
\$40 to \$50, 25c.
\$50 to \$60, 30c.
\$60 to \$70, 35c.
\$70 to \$80, 40c.
\$80 to \$100, 45c.

This reduction of rates for the larger orders will give the government more business for those orders, for the reason that heretofore the express companies, charging less fees than the government, have obtained that business, while the government has been left to do a large business in the smaller orders, which are unprofitable.

While the present postal-note fee is the same as that of the minimum money order, 3 cents, and the highest amount for which a postal note can be issued is \$4.00, the experience of several years past has proven that the average amount for which postal notes are issued is \$1.68, so that it is evident that a very large proportion are issued for amounts less than \$2.50 and therefore under the new system the lowest denomination of the new money order will substantially supply all the facilities at present afforded by the postal note and at the same time guarantee perfect safety. The postal note in practice gives no security whatever to the sender. Anybody can get one cashed simply by signing his name and presenting it for payment at any post-office authorized to pay postal notes at all, so that the risk in sending it through the mails is just as great as in sending actual money, the only advantage being that it can be made out for a fractional sum. The practice of requiring the payer to sign his name upon payment is a farce and a fraud, since there is no means of preventing a mistake in payment and no way of checking or counter-checking for the security either of the postmaster who issued the note or the one who paid it. If it is lost in transit or otherwise no duplicate can be had. Most newspapers and business firms receiving remittances through the mails make a habit of repeatedly notifying their patrons and mail customers that money transmitted by postal note is wholly at the risk of the sender. The new money order, on the other hand by an ingeniously contrived system of coupons serving as an effective check both upon purchaser and postmaster, will be exempt from all these embarrassments and imperfections, and is apt to prove a satisfactory solution of the long-mooted problem of reissuing fractional cur-

rency for convenience in mail purchases.

WATER MAIN TO THE STATE SCHOOL

The Negotiations Now Pending Are Likely to Be Successful.

Negotiations are pending and with an outlook of success for the extension of the city water mains to the Wisconsin Institution for the Blind. The extension would be a continuation of the Gold street main crossing the river and the marsh on a line with that street. The State Board of Control will hold a meeting next week when action will be taken regarding the proposition of that nature made them by the Janesville Water company through Manager Maxcey of Oakkosh.

BLIND PUPILS TO BE GUESTS.

They Are Invited to Attend the University Glee Club Concert.

Superintendent Lynn S. Pease of the state school for the blind has been tendered free admission for all the pupils of the school to the University of Wisconsin, Glee, Mandolin and Banjo clubs' concert. He has accepted with many thanks and the blind boys and girls will enjoy a treat next week. Manager Simpson in extending the invitation says:

"We are both state institutions, we both draw our support from the state at large, a common bond should unite us, and then over and above it all, I wish to say as an alumnus of the uni-

TWO THIRDS VOTE ON THE HIGH SCHOOL.

SEVEN ALDERMEN MUST FAVOR BOND ISSUE.

Unless That Many Speak in Favor of the New Building There Can Be No Further Proceedings—Election Was Under State Law Not the City Charter.

To build Janesville's new high school, a two third majority will be required in the common council—not in the popular vote. There must be seven affirmative votes in the council or bonds cannot be issued. Whether these seven votes can be secured is the question.

It was first supposed the school question had been submitted to the people under the provisions of the city charter. In that case a two-third majority of the popular vote would be required the charter reading as follows:

"The manner of submitting any question to the electors of said city herein before required by the provisions of this act to be so submitted shall be as follows: * * * But any question so submitted shall be declared lost unless it shall appear on such canvass that two-thirds or more of all the legal votes cast thereon shall be in favor thereof."

Clerk Cunningham says, however, that the vote was not conducted under this chapter. Advantage was taken of the fact that Section 943 of the Revised Statutes permits the issue of bonds on a majority vote. It reads as follows:

"No bonds shall in any case be issued by any town, village or city until the proposition for their issue for the special purposes thereof shall have been submitted to the people of such municipality and adopted by a majority voting thereon."

The matter having been disposed of by the people it now rests with the council, and here the chapter provision calling for a two-thirds vote comes into play.

REPUBLICAN CLUB IN A DEBATE.

Should There Be a Tariff Commission Is the Point Under Discussion.

Members of the Young Men's Republican club are not relaxing their energy simply because the campaign is ended. A meeting will be held in the municipal court room tomorrow evening and this question will be debated:

Resolved, That for the best interests of the country, all questions relating to duties on imports and exports should be decided by a commission similar to our inter state commerce commission.

Affirmative J. V. Norcross and S. C. Burnham.

Negative, M. P. Richardson and W. A. Jackson.

A full attendance is expected as the debate will be a stirring one. After the opening speeches the discussion will be thrown open and the audience is expected to furnish suggestions.

It will astonish you how quick Johnson's Magic Oil will kill all pain. Sold at Smith's pharmacy; 25 and 50 cents.

A Disputed Case.

Many persons dispute the question as to whether or not baldness caused either by disease or neglect can be cured. In deciding the question allow us to say that most cases can be cured, while others cannot. Only a specialist of years of experience can tell this. Professor Birkholz, the world-renowned German specialist of the Masonic Temple, Chicago, where those who desire a good head of hair or beard can consult him in private, and free of charge. After a thorough examination, which costs you nothing, we will tell you whether or not you may procure that trait of personal adornment, so necessary to your existence, and if we find that the follicles are not all dead, we will treat you and guarantee the results or ask no pay. Call on or address Professor Birkholz, 1011 Masonic Temple, Chicago, Ill.

Five Vowels in a Row.

The Hawaiian language is composed mainly of vowels, and a few consonants put in to vary the monotony. And the beauty of the system is that there is no waste. Every vowel is pronounced. For instance, when the American eye winks at the appearance of the simple word "naauao," the glib native rolls out the five syllables with neatness and dispatch. This means "enlighten." Double vowels are very frequent, but never a diphthong. Three vowels are not uncommon, and, as above, four and sometimes more are found unseparated by consonants. In the mouth of the uneducated native the language is apt to be explosive, but the higher classes speak it with a fluent grace that surpasses the French or the Italian. In sound it somewhat resembles the general flow of the continental European languages, for the vowels all have the French quality, and the accents are not dissimilar. —Washington Star.

New Members of the Board.

The old members of the county board were reelected for the most part. New members are H. Gray, Harmony, E. McInnes, Edgerton; Iver Jacobson, Clinton; Ole Peterson, Spring Valley; Alex White, Porter; H. C. Stordock, Avon; George Cram, Beloit city; William Brinkman, Rock; B. D. Treadway, Beloit city; E. N. Haugen, Plymouth; A. C. Powers, Beloit town. Powers succeeds Chairman C. N. Nye.

A False Maxim.

The loungers around the only store in a little New England village were greatly amused at something that happened one warm afternoon. A tall, lank, barefooted man came into the store with a gallon pail filled with blackberries, which he exchanged for three quarts of molasses.

He carried a stout hickory walking stick in one hand, and when he departed he put the pail on one end of the stick and threw the stick across his shoulder. He reached the platform in front of the store when a shining new pin at his feet caught his eye.

"See a pin and pick it up,
All the day you'll have good luck," he drawled out and stooped over to pick up the pin, when the molasses crawled out all over his back and neck.

Straightening himself hurriedly, the man said:

"Waal, I never thought much of that air proverb, an I think less on it now than I ever did." —Youth's Companion.

DRESSES FOR DAISY BELL.

They Look Sweet on the Seat of a Bicycle Built For Two.

One want supplied makes half a dozen more. No sooner was a bicycle for women invented than necessity arose for a special hat, gown and shoe for the rider to wear. The bicycle is an immense weight in the conventional dress reformer's side of the scale, for it is impossible to ride a wheel to advantage in long skirts, and a great many

BICYCLE SUIT.

persons will make sacrifices to pleasure that they will not make for duty's sake. No doubt a large number of women now believe in short skirts who would have scouted the idea of them before the advent of the bicycle.

The long skirt is an undeniable hindrance in all active amusements and particularly in bicycling. The placket opening is always catching on the front of the saddle in mounting, while the hem gets between the foot and the pedal and prevents the machine from starting. Parisian women soon discarded the long skirt for bicycle wear and have now abandoned the skirt altogether, appearing in short, tight trousers similar to those worn by men. It is doubtful if women on this side of the water will follow fashion as far as that. Indeed it is not at all necessary to go entirely without skirts, as a scant one falling just below the knees is no burden, does not interfere with freedom of movement and runs no chance of catching in the gearing when the wheel is in motion—a fruitful source of accidents.

These short skirts are commonly seen now. Full trousers of the same material are worn under them in place of a petticoat and cloth or leather leggings buttoning to the knee. A woman who wears the modern bathing suit has no reason for objecting to such a dress, which is comfortable and rational if not beautiful. For cold weather it may be made of heavy cloth and trimmed with bands of fur, while for summer wear thin chevot and mixed goods, trimmed with rows of stitching, will be found serviceable. Drab, gray, brown, navy blue, dark green and black are good colors, and all noticeable kinds of decoration should be strictly avoided.

A sketch is given of a bicycle costume in navy blue cloth, the cloth leggings, worn over black shoes, being of the same color. The skirt and Eton jacket are trimmed with black stitching. An outing shirt is worn with a four-in-hand tie. The cap is of white duck.

A Cry For Help.

In the stillness of the night is sufficiently startling. What if no aid be at hand or we know no where the cry comes? This is not the case with that mute appeal made to the resources of medical science, ever ready, ever available by disease on every hand. A prompt means of self help for the malicious, the rheumatic, the dyspeptic, the bilious, and persons troubled with impending kidney complaints, is to be found in Ho-tetter's Stomach Bitters, an ever-present help in time of trouble for all such hapless individuals. They should not delay a moment in seeking its aid. Experience has shown its wide utility, the recommendation of eminent physicians everywhere, sanction its use. Nervous, thin, debilitated invalids gain bodily substance and vigor by a course of this fine invigorant, which is eminently serviceable, also, to the aged and convalescent.

THIS DAY IN HISTORY

33—This is the date agreed upon by most church historians as that on which Jesus Christ rose from the dead.

1614—Pocahontas married John Rolfe.

1685—Catherine I of Russia was born; died 1727; empress 1725.

1794—Danton, Camille Desmoulins and other Jacobins guillotined.

1832—John T. Raymond, noted actor, born in Buffalo; died 1888.

1856—Peace proclaimed in the camps of the allies at Sevastopol.

1863—Death of General J. K. Barnes, surgeon general of the United States.

1887—Henri Dupin, called the "Father of French Dramatists," and author of 230 plays, died; born 1791.

1888—Jacob Sharp, financier who "budded" the New York aldermen, died in that city; born 1817.

1892—Lord Arthur John Edward Russell of London died.

MORTGAGES AND MORTGAGEES.

The statistics of the census bureau with respect to the burden of mortgage indebtedness—the heaviest of all charges upon the property and industry of the country—are well worth analyzing for the exact meaning of the information that they convey. In the aggregate, this form of indebtedness reaches the enormous sum of \$4,935,455,896, of which \$1,686,272,279 is on farm lands, and \$3,249,183,614 is on city and town property. This is to say, of the total amount, only a little over one-third rests upon the rural population. This will surprise those who know nothing about the matter except what has been told them by populist orators and newspapers.

Unquestionably there has been an improvement in trade in the past two or three weeks. Sales are increasing in most sorts of manufactures, and the demand for money is expanding. There is good reason for this, as both production and consumption for several months have been at a low point, and a reaction was bound to take place when the spring opened. Then the chance for free trade grows less with each day.

Governor Jones, of Alabama, may yet be sorry he wrote that letter to Senator Hoar, denying that fraudulent ballots made him governor. He has already been called a "deliberate, malicious and unqualified" liar by a prominent Alabamian, on account of it. If that does call for gore, the Alabama code is played out.

Senator Dolph is right, the Clayton-Bulwer treaty ought to be abrogated. The United States needs no treaty to keep Great Britain or any other European country, from exercising my dominion over any part of Central America and the treaty which ties our hands, so far as any control of the same country is concerned, ought to be gotten rid of.

Twenty republicans are more or less prominently mentioned for governor of Wisconsin while no democratic aspirant is in sight. This condition of things is odd, but it is easily understood. The republican candidate, whoever he chances to be, will be elected, and both sides know it.

According to all accounts, the Dockery Commission has been doing a very useful work in the way of simplifying the methods and reducing the expenses of the different departments; and it is to be hoped that the democratic congress will not defeat the proposed reforms.

There won't be much democratic oratory of a notable sort in the senate while the Wilson bill is under discussion. Democratic senators who could make the best speeches in favor of the bill are more inclined to speak against that infamous measure.

The people do not want any compromise legislation on the currency question. What they do want is masterly adherence to the policy of letting well enough alone in that respect.

There are a large number of men now in congress who do not regard this as an "off year" in politics, although many of them have been "off" since the returns came in.

The administration has apparently just discovered that John Bull was trying to trick uncle Sam in relation to patrolling Bering Sea. It's an old habit of John's.

Having survived the Pollard-Breckenridge trial the people of Washington have no occasion to worry over the prospect of having to entertain Coxey's army.

DO YOU SLEEP ENOUGH?

IF NOT, SOMETHING IS THE MATTER AND NEEDS ATTENTION.

Nothing is so important as sleep. If for any reason you do not get enough sound sleep, you are sapping the vitality from your nerves and laying the foundation for the most dreadful nervous diseases. Many things prevent sleep, such as weak nerves, nervousness, worry, indigestion, overwork or strain upon the nerves. Thousands of people become sleepless and have weak nerves and yet do not call themselves exactly sick. Still they are out of order, nervous and have no ambition for work or pleasure. You need the great sleep medicine, Dr. Greene's Nervur blood and nerve remedy. It will make you well.

Mr. Frank E. Bacon, of 7 Dyer avenue, Arlington, R. I., writes the following letter telling how he was cured of the horrors of sleeplessness: "For over a year I suffered terribly with sleeplessness, indigestion, nervousness and debility. At night sleep would not come to me. I would get up in the morning and go to work fully as tired as I would go to bed the night before. Every morning I had that same tired and broken down feeling that I had all day.

"I would toss and turn in bed, but could not get a night's rest. I had indigestion fearfully and my food distressed me constantly. I could eat hardly anything. Life seemed a burden to me and I was completely discouraged. I could not do justice to my work and feared I would be obliged to give up work entirely.

MR. FRANK E. BACON.

"Many remedies were recommended to me and I tried them, but I could see no benefit. I recently recovered from a severe attack of the grippe and on getting around again determined to get rid of these terrible diseases, indigestion, sleeplessness and nervousness.

"I determined to get well and take some comfort in living. I heard of Dr. Greene's Nervura blood and nerve remedy and the wonders it was constantly doing, and decided to try it. I did so, and noting with surprise the benefit derived from one bottle, continued its use.

"I have now used four bottles and feel like a different man. I can rest at and I really enjoy eating my meals. I attribute my cure entirely to Dr. Greene's Nervura blood and nerve remedy. It is a most splendid and wonderful medicine.

"I don't know what would have become of me if it had not been for this remarkable remedy. I heartily recommend it to everyone, knowing what it has done for me. No such medicine was ever made before."

Are you nervous, restless, sleepless, and have wakeful, disturbed nights? If so, you are in danger, and the only thing for you to do is to take Dr. Greene's Nervura blood and nerve remedy. It will surely and positively cure you, give you natural sleep and make you well. This is the best time to take it as a medicine always acts best in the spring. It is used and recommended by physicians, as it is the discovery of the most successful specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th Street, New York City. He can be consulted free, personally or by letter.

Condition of Stock in the West.

CHEYENNE, Wyo., April 5.—At the twenty-second annual meeting of the Wyoming Stock Growers' association President Ray in his address said, generally speaking, the losses have been heavy and everywhere cattle enter the spring months far below the average in condition. The country is lightly stocked and such herds as have stood the storms may regain their old-time prestige and make money for their owners.

Will Not Approve Modus Vivendi.

MANAGUA, Nicaragua, via Galveston Texas, April 5.—The government of Nicaragua will not approve the modus vivendi for the Musquito reservation offered by the American and British consuls and the Nicaraguan agent. The government also proposes to change its policy regarding the canal company, but is keeping secret any information concerning its plans.

EYES GROWING IN AFTER THIRTY YEARS

JOHN F. BAHLER'S SIGHT IS
RETURNING.

Operation Performed Here Thirty Years Ago—A Case Unparalleled in Surgery—Ball Was Cut From the Optic Nerve Leaving the Latter as a Stub in the Socket.

John F. Bahler, whose sight was restored after thirty years of blindness, is visiting his old home in this city. Early in the sixties Mr. Bahler's left eye-ball was dissected away from the nerve by Dr. R. B. Treat, then of Janesville. A year later Dr. Rider, of Rochester, performed the same operation on his right eye. For ten years Mr. Bahler wore artificial eyes, and his tin type taken at that time shows the artificial eyes very distinctly. For twenty years after discarding glass eyes Mr. Bahler wore smoked glasses. "For several years," he said, "I thought that if I only had enough faith my eye-sight would be restored. The first I noticed any change in my eyes was a year ago last April. I was attending an Adventist camp meeting in Celso, California. It was in the evening, and my wife, daughter and Frank Thorpe were sitting in my room at the hotel. Mr. Thorpe and I were talking on the subject of 'healing,' when all of a sudden I saw a light. I could hardly believe my senses and asked my wife what was opposite to me on the other side of the room. She informed me that it was a lamp.

Eyes Grew In Empty Sockets. "Upon examination it was found that new eyeballs were growing back into the sockets on the stubs that were left after the operation, and that a small blue spot was forming on the right ball. As time rolled on this spot grew larger and in a few weeks a similar spot started on the ball of the left eye. When I returned to my home in Fresno I called on two physicians and told my story. They examined my eyes and said it was the most curious thing they had ever heard of. Since that night my eyesight has been gradually getting better, and today I can distinguish light from darkness, and tell such colors as white, yellow and red. I know that God has answered my prayers and blessed me. I firmly believe that in time my eyesight will be as good as it was before.

"This story is hard to credit, and I do not like to tell it for fear some people will not believe it, but I could furnish many witnesses who will testify to the truthfulness of my statements.

Has Affidavits of Friends. "I called on Superintendent Lynn S. Pease of the school for the blind last evening and have promised to send him affidavits from Battle Creek corroborating my story. It was in the school for the blind that my left eye was operated upon and the physician was the father of L. R. Treat of this city. I intend to get his statement to add to the other data which I have. The doctors tell me that when my eyes were taken out the nerve was left as a stub and from that my new eyes have grown."

Mr. Bahler is accompanied to this city by his daughter. He has been spending the winter in Milwaukee but will leave this week for Battle Creek, Mich., the headquarters of the Adventists. He is an Adventist missionary and worked for several years among the Chinese in El Paso, Texas. He was born in Switzerland, and moved to this country when he was four years old. The inflammation which caused his blindness set in when he was eighteen years of age. He is now fifty-two years old, living with his second wife and has a son and daughter. His case is truly a remarkable one, and has caused much talk in medical circles. Adventists consider his recovery as nothing but a wonderful answer to prayer and have devoted much space to it in their church publication.

HARD TIMES CAUSE A FAMILY RUMPUS.

SORRY TALE TOLD IN THE
MUNICIPAL COURT TODAY.

Man Who Got But Fifty Cents a Day Had to Abandon His Family—Cutting Affray at Beloit—Burglars in The Depots—Criminal News of the Bower City.

Hard times caused the airing of a family trouble before Judge Phelps in the municipal court this morning. It was more a tale of sorrow than of wrong doing. The man and woman in the case were married a year ago. Times got hard and the husband one day abandoned his wife. She went to the poorhouse at Johnstown and there the family became three. It took the wife a good while to decide that her husband had really left her but finally she made a complaint against him in the municipal court. He was brought before Judge Phelps this morning and explained that he had been compelled to work for fifty cents a day or starve and that it was impossible for him to support his family. He gave Poor Master Kenyon an order for \$6.00, all the money he had coming from his employer and this will be given to his wife. She wept upon her husband's breast and they decided to make up and try it again, the husband going back to the farm, while the wife hunted for a place as a domestic.

STABBING AFFRAY AT BELOIT.

Pat Siney Cuts Y. R. Brand—Burglars in Depots—Criminal News.

Charged with the alleged cutting of Y. R. Brand of Beloit, Patrick Siney will be before the municipal court on April 12. The defendant, who has been in jail here had a hearing before Justice Booth at the Line City this morning. Acting District Attorney Henry S. Sloan appeared for the state and Siney was held for trial. Assault with intent to commit murder was the charge against him. Brand's wound is not considered dangerous. Siney has been in jail here since Monday and City Marshal Appleby came up from Beloit for him this morning.

DEPOT THIEVES GOT LITTLE PAY.

Nineteen Cents and Two Tickets the Proceeds of Two Robberies.

Thieves broke into the Chicago, Milwaukee & St. Paul passenger depots at Oshkosh and Hanover yesterday, but they didn't get much pay for taking their chances on going to state's prison. At Oshkosh the thieves only got nineteen cents and from Hanover only four tickets from that place to Chicago were taken which leads the police to believe that the robbers want right to Chicago. All conductors have been notified to take up the tickets when they are presented and cause the arrest of the person presenting them.

GRIND OF THE CRIMINAL COURT.

Ernest Blum Held For Trial.

Ernest Blum, alias Bloom, alias Daly, the man who secured \$1.50 from Mrs. A. W. Allison by saying that her husband sent him for it, was arraigned in the municipal court this morning on the charge of obtaining money under false pretenses. Blum waived examination and was held in bonds of \$250 to appear in the municipal court at 10 o'clock on April 12.

CLARE'S KNOWLEDGE OF ROME.

Something of the Eloquent Pastor Who Lectures Here Tomorrow Evening.

Rev. George Hunter Clare, Ph D., who is to lecture at All Souls church on Friday evening of this week, is a speaker of more than ordinary ability. He is a graduate of Oxford, in England, and also one of the most celebrated schools in Europe located in Rome. He was educated for a Roman Catholic priest, and was intended for a high position in one of the Catholic schools in Europe. While studying at Rome he changed his religious views and finally entered the liberal ministry. He is at present pastor of the University church at Madison. He is as yet little more than thirty years of age and his life thus far has been so romantic and full of experiences that an unbiassed statement of his life experiences would be regarded as exaggerated. His knowledge of Rome and Roman affairs is derived from a long stay in Rome. As a speaker he is eloquent and ornate; as a scholar he is fully the equal of any man in the state of Wisconsin, and as a linguist he stands in the front rank with the best scholars of Europe and America. He has enjoyed the acquaintance and companionship of the best thinkers and scholars in Europe and America, including the present pontiff. The lecture is not a religious one, it involves no attack upon any religious system but is very thrilling and interesting. Our citizens cannot afford to lose the opportunity of hearing this distinguished speaker. We trust that all will remember the date and make it a point to be present on the occasion of his lecture.

JANESVILLE MEN VOTED ILLEGALLY.

BRODHEAD WAS CARRIED BY
BOWER CITY BALLOTS.

John Cooley Says That a Colony From This Town Ran Their Election and He Wants the Offenders Punished—Here To See District Attorney Wheeler About It.

Fire darted from all the points of John Cooley's well-knit frame when he stepped from the St. Paul train from Brodhead this morning. He didn't deny that he was mad and Janesville citizens, he said, were responsible for it.

It was a small matter.

They merely packed the Brodhead polls and elected a democratic mayor by twenty-four majority.

Cooley contended, and rightly, that Janesville people had no right to vote in Brodhead but they voted just the same. A week ago a crowd of them, Mr. Cooley says, came to his town to "work in the tobacco warehouses."

One week's residence did not entitle them to vote but they got their ballots in. In Mr. Cooley's ward they defeated the republican candidate for alderman and in the city, Michael Broderrick, who is a cousin of City Treasurer Murphy and who is well known here, was elected mayor. Mr. Cooley said that this thing had been done before and that Brodhead people think it is time to quit. With that end in view he came to Janesville this morning to ask District Attorney Wheeler if he couldn't restrain the Janesville voters and keep them at home. He had no idea that he could invalidate the election, but he wanted proceedings started to stop the practice. Attorney Wheeler was in Evansville so Mr. Cooley did not see him but said that he would before he left. He is a half brother of Prof. F. W. Cooley the former superintendent of the Janesville schools.

CROOKS CAN'T BEAT BERTILLON'S PLAN.

HOW CRIMINALS ARE BEING
IDENTIFIED.

The Old Plan of Photography Being
Gradually Displaced by the Never
Failing Measurement Method Which
Originated in France.

THE FAMOUS Bertillon system of measuring "crooks" has now been sufficiently long in operation for our police officials to have positively determined that it is one of the greatest schemes of the age.

and bound to become in the course of time, when thoroughly established in all the cities of this country and an interchange system inaugurated, a terror of the largest magnitude to all classes of criminals, says the Philadelphia Times.

Although years may pass after a man's release from prison before he is again arrested and his criminal history be almost if not quite forgotten, the scientific identification of the Bertillon system is sure to reveal his identity and give his criminal record of the past, despite a thousand protestations of previous good conduct and his claim of a first offense. After a man or woman once passes through the ordeal of M. Bertillon's method of identification they are forever spotted. They may grow old, efface tattooing or other marks on their bodies, compress their chests, dye their hair, reduce their weight, extract their teeth, in fact do anything and everything they can devise to destroy their identity, but all to no purpose—the record against them is unfailing. They can not pass the Bertillon examination if they live to be one hundred years old without recognition.

When the system was first adopted in Philadelphia in 1892, the apparatus required for taking the various measurements of criminals was placed in a small room adjoining the cell room on the sixth floor of the city hall. It was soon discovered, however, that this space was not sufficient, and the public building commissioners were asked for a room on the seventh floor, which was granted. In order to secure a good light with which to make the photographs, a large section of the roof was removed

MEASURING THE RIGHT EAR.
and a skylight placed in, making a perfect gallery.

In this room closets for storing chemicals, drawers for keeping records and a dark room on the most improved plan were built, the whole being placed at the disposal of John M. Townsend, who was appointed chief clerk of the detective bureau, to enable him to take charge of the Bertillon system. Mr. Townsend still occupies this position and in the course of his investigations during the last few years has become an enthusiastic believer in Bertillon's theories.

"Would you mind giving a practical demonstration of Bertillon's method of measuring crooks?" Mr. Townsend was asked.

"It would give me great pleasure," he replied. "I will see if I can secure a prisoner for the experiment."

Excusing himself, he departed in search of a subject, returning almost

MEASURING LENGTH OF ARMS.

immediately with a short, rather stout man in charge of an officer.

The first thing Mr. Townsend did in taking his subject in hand was to ask his name, his nativity, his occupation and if he was married, to which questions the man replied without hesitation. His answers were recorded on a slip of paper, together with his various measurements and other data regarding him, obtained as follows:

"Kindly take a seat in that chair," remarked Mr. Townsend to the prisoner. "I want to take your photograph. Now put your hat on. That will do. Hold on, take your hat off, now turn

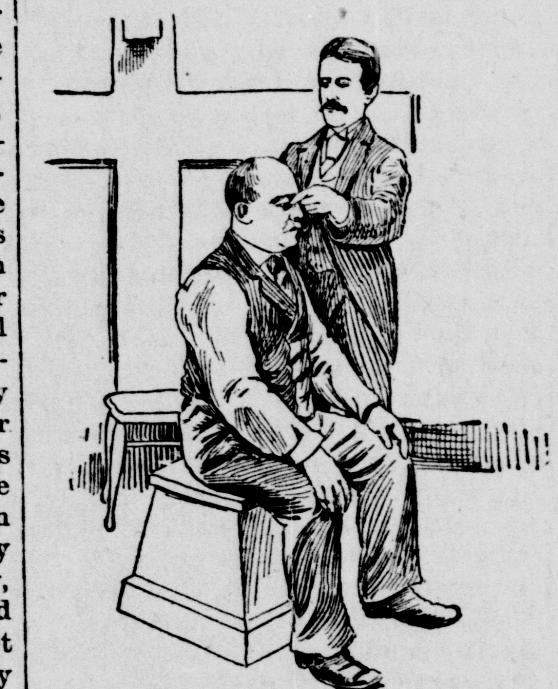

your face around this way, I want to make another photograph."

The next step was to take the weight of the prisoner; then the criminal was directed to place himself against a high measuring board, bearing at the side a scale. This arrangement had the appearance of a crucifix. It was handsomely made of maple wood and was about eight feet in height and marked off with lines and figures. On the arms were a number of fine lines running up and down intersected with numerals; the upright portion of the cross had a sliding block, working in a slot and adjustable by a thumb-screw. This arrangement was placed across the top of the head and the height it marked was noted.

Without changing his position the subject was then ordered to stretch his arms out full length and another measurement was taken. He was then requested to seat himself upon a stool and the height of his trunk followed.

"Now," said Mr. Townsend to the prisoner, "step on that stool and throw back your right leg in such a way that your entire weight comes upon the left foot."

The measure of the foot then followed. The measurement of the head, accomplished with a jointed compass, furnished with a semi-circular

HEAD MEASUREMENT.

lar scale divided into millimetres, is one of the most important of all the steps in the Bertillon system. Mr. Townsend said that great care was always taken to have it exact. One foot of the compass is braced against the root of the nose and the other moved over the back of the skull in search of the point of greatest depth. When this is reached, the compass is set and again applied to see if the foot can be moved freely all over the back of the head without coming to a point which it can not pass. If such a point is reached, evidently there is a greater depth than the one before registered and another trial is made.

"The measurement of the head," explained Mr. Townsend, "is of great importance, because it is one of the surest means of identification. A tricky criminal may shrink his stature or expand his chest, but it is impossible for him to subtract from the breadth and length of his skull."

After the head, the right ear was measured and its length and breadth recorded and any peculiarity regarding it was noted. The nose was the next feature demanding the examiner's attention, no less than six different measurements of this organ being taken, its length, breadth, projection from the face and width at root and base being among them, and besides all this, a note was made of its peculiarities. Then the prisoner was requested to stand with his forearm resting on the table and its measurement was taken, also that of his left hand, forefinger and little finger.

The Germ Theory.

The germ theory is largely responsible for some of the marvels of modern surgery. Out of the germ theory grew the scrupulous care of surgeons as to the aseptic and antiseptic treatment of wounds so that the fevers and inflammations that used to be the inevitable consequence of surgical operations are now unknown in well managed hospitals. Surgeons will now chip off the top of a man's head, exhibit his brain to a curious class of students, send him to bed with his "wound" antiseptically dressed and bring him back a week later with nothing to show of the operation but a slight and well healed scar. When a boy's leg was to be removed the other day, the surgeons first cut a hole in the abdomen big enough for one of them to thrust in his sterilized fist and pinch an artery that would be involved in the operation. But for the possibility of antiseptic treatment no such operation could be performed with safety.

Thread Biting.

Ladies who do considerable sewing frequently suffer a great deal from soreness of the mouth and lips, and are often at a loss to ascertain the cause of the trouble. Half the time it is simply the result of biting off thread instead of using a pair of scissors for cutting. In the case of silk thread the danger is quite marked, because it is usual to soak the thread in acetate of lead, partly to harden it and give it a good surface, and also, perhaps, to increase its weight somewhat. If this practice of biting thread is followed regularly, and very much silk thread so used, the results may be quite serious, and even lead to blood-poisoning.

Set Him to Thinking.

Mr. Richfello (dolefully)—I hear that Miss Beanti is engaged to Mr. Goodheart.

Miss Pretti—All nonsense! It is not true.

Mr. Richfello (excitedly)—Are you sure?

Miss Pretti—Absolutely—that is, unless Mr. Goodheart has fallen heir to a fortune lately.

The soft liberty silks are shown in beautiful shades, and will be most used for making the popular silk waist.

LACE AS A TRIMMING.

It Is Seen on Gowns, Capes, Hats, Bonnets and Almost Everywhere.

Lace holds a prominent place in summer fashions. It trims gowns and capes. It figures largely in hats and bonnets and is made up into all sorts of pretty accessories that may be worn with any costume. Wide and narrow applied bands of guipure are still a favorite mode of decoration, while black net bands are used bearing a heavy pattern worked in silk or spangles. This flat application of lace shows the heavy varieties to great advantage.

Sometimes the entire back of the bodice is covered with guipure, the front having figaro jacket pieces or being otherwise

BODICE TRIMMED WITH LACE.

adorned with the same lace. This is a very effective style of trimming and gives an appearance of elaboration at the cost of little trouble. Not only are black, white and ecru laces worn, but various shades of decided yellow, ranging from straw color to old gold. A waist of plaid silk was seen, having a cream ground crossed with bands of light violet and tan and trimmed with bretelles of pale yellow lace of a light quality, and the combination was most pleasing. Separate lace yokes are sold, having a deep flounce of lace around the lower edge.

The embroideries shown this year are also very pretty. There are many new patterns in entirely white goods, both wide and narrow, while colored dress chambrays are shown deeply embroidered along one edge, which has a hemstitched border. The scarlet ones, worked in black or white, are especially attractive. Narrower embroidery for trimming white waists appears in white, having an inlaid pattern in colored cambric, turquoise, pink, yellow, red or violet, and the edge is usually embroidered in the same color. Very open all over embroidery is also in vogue for the yokes of thin gowns, and edged trimming may be obtained to match it.

With the increased popularity of lace has come a demand for shaped pieces—not only corsets and figaro jackets, but pelerines, collars, yokes and epaulets. A sketch is given of the corsage of a reception gown made of crepe green striped silk. It is a plain round bodice, closing invisibly under the left arm. A sort of pointed pelerine of guipure, divided back and front, covers the shoulders, while wide lace epaulets fall over the balloon sleeves, which extend only to the elbow.

The Thushness of It.

We have a new house, a good one, that we want to sell cheap, and take as part payment \$1000 of tobacco, of the crops of 1892 and 1893. Here is your chance.

We have a nice genteel business in the heart of the city; no such chance ever before offered, for a good man and wife to earn easily a good living. We will exchange it for a good house and lot, and pay the difference in cash.

We have excellent homes at \$500, \$450, \$1,000, \$1,200, \$1,500; (this one has over 2½ acres of land right in the city, with good house, barn, well, cistern, fruit, &c.); \$1,750 \$2,000 and so along up to \$10,000.

We have seventy acres good land, but cheap, to exchange as part payment on a good home. Land free and clear and will pay some cash difference on home that suits.

We have some money to loan in sums to suit. We want one first class loan of \$1,000 and another of \$1,500. Five years a percent.

This is thus, and, we are

Catarrh

COLD IN THE HEAD

relieved instantly by one application of

Birney's Catarrh Powder

REV. FATHER CLARKE, Sec'y to the Rt. Rev. Bishop of Columbus, Ohio, writes:
Gentlemen:—I cannot say enough for your Powder. It has cured me of an aggravated attack of catarrh when nothing else could help me. Am delighted with it. All my friends to whom I administered samples are quite enthusiastic over it. The good states speak most encouragingly of their use of it in the Hospital under their care. I will do anything to speak a good word for the remedy to help others who are suffering.

M. E. FERGUSON, Custodian U. S. Appraiser's Stores, Chicago, writes:
Gentlemen:—Being almost entirely deaf for a number of years past and getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrh Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick plainly, it being held 18 inches from my ear. I look upon it as a positive cure for deafness and have recommended its use to many of my friends and can say I have never heard of a case where it has failed to relieve.

BRIEF AND VARIED.

California has a 3,300-acre prune orchard.

New York's Croton aqueduct surpasses all modern engineering efforts of this kind.

There is a four-story brick mansion in New York city, "with all modern improvements," which is only five feet wide.

There were 15,373 cases admitted and treated in the Bellevue hospital, New York, last year, of which 13,781 were discharged and 1,592 died.

The longest train on record was that of Catharine de Medici on the occasion of her marriage. It was forty-eight yards and borne by ten pairs of pages.

Virginia's "Dismal Swamp" is not a swamp at all, but a low-lying forest which has been so well drained that before many years a good part of it will probably be devoted to rice cultivation.

At Oviedo, Florida, Mrs. C. E. Brown tried to drive a hawk away from her chickens, when it turned upon her. Old Man Brown went to see about it, and was also attacked, but succeeded in killing the hawk with a club.

Two sap buckets for use in the maple sugar making season, which are in the possession of Ober Thornton of Arcade, N. Y., were made by him in 1819, and have been in continuous use ever since. Mr. Thornton celebrated his centennial birthday recently.

St. Paul's cathedral in London, which dates back more than 200 years, and which was called finished in 1710, has had much work done on it since that time as part of the original design, and even now statues are being placed in the niches in the dome designed for them by Sir Christopher Wren.

The timber line in the Rocky mountains runs as low as 9,500 feet and as high as 12,400. It has been observed that on the south slope of Mount McClelland in Colorado, pines two feet in diameter and thirty feet high live and increase in size at an elevation of 12,400 feet. The winter at that elevation is long, the cold is intense, and the snow storms are of terrific violence.

The remains of what antiquarians claim is the foundation of the house of Philip Carteret, the first colonial governor of New Jersey, and where the first legislature of the state met on May 26, 1668, have been unearthed at Elizabeth by City Surveyor Meyer. It is thought that a monument will be erected to mark the spot where laws were first enacted for the government of New Jersey.

Lost and Found.

The ancients possessed some few arts which were lost on the road to us. They could color marble as easily as we do cloth. They could preserve the dead until their dust would not mingle with the earth for centuries. But when it comes to mechanical skill, to labor saving appliances, to wealth-compelling inventions, they were not "in". Our machines have more sense than the old mechanics. See what these modern marvels with their iron arms and steel fingers can do, and how little they charge for doing it!

Modern Instance.

ONE OF THE SHOOTING STARS that has lighted up the bargain sky in the Carpet Department is that **50c all wool Ingrain Carpet**—50 rolls of beautiful, artistic patterns received the past three weeks. This particular make is confined to us for Janesville, the designs can be seen only here. Remember this lot represents a large new purchase—they are not carpets from stock reduced to 50c.

Our Carpet Department

is the size of four ordinary stores. What we show--the variety--as large as can be seen in an other three stores in Rock County. Posted people say our carpet showings are nothing if not wonderful. To meet with a stock of such magnitude in a 15,000 inhabitants town augurs much for our enterprise and is appreciated, the growth of our business shows it.
